That broken leg was an awful accident. Or was it?

Animal abuse victims depend on YOU.

If you see...

- Signs of neglect
  severely matted fur, ingrown collar, severe dental disease, heavy ectoparasite infestation

- New, repeated, or old trauma
  to the skeleton and soft tissue

- Injuries that don’t match the explanation
  keep non-accidental injuries on your list of rule-outs

- Starvation or severe malnutrition

- Repeated visits with different pets

...do the following:

- Ask: “Do you think someone may have harmed your pet?”
- Document everything. Take pictures.
- Contact local law enforcement.
